# Products & Accessories Catalog

## 2014

## Simple, Powerful, Affordable.

**IPEVO is a whole new approach to classroom technology. We believe that classroom technology should allow educators to do more at a lower price.**

IPEVO's interactive teaching tools empower educators and teachers with radically affordable and compact technology that is simple, intuitive and flexible, so that precious time and resources can be wholly dedicated to teaching. As of December 2013, IPEVO products are used in 46,575 of all K-12 schools in America.

**60-Inch Projection Screen with Magnetic Backing** for IS-01 IWB System

Turns any flat surface into a whiteboard projection screen. No-hassle magnetic backing — easily affix to your existing whiteboard or magnetic surface; removal is just as easy. No glare! Unlike standard whiteboards, superior sharpness and contrast reduce unwanted glare. Affix screen to a wall or non-magnetic surface with high-strength bonding tape or velcro strips (not included). Use dry erase markers just as you would with a traditional whiteboard. Roll back up and transport with ease after you're finished; ideal for schools, offices, and conference rooms. Perfect companion to the IPEVO IS-01 Interactive Whiteboard System.

Model no. **5-138-1-8006**

**$79** *IS-01 sold separately

IS-01

**Extension Wand** for IS-01 IWB System

Attaches to the IS-01 Interactive Pen — now you can reach larger and higher screen surfaces. Point and present material without blocking the screen or the IS-01 Sensor Cam. Effectively extends the length of the IS-01 Interactive Pen from 7.9" (20cm) to 23.8" (60.5cm). Durable aluminum construction; simple one-step installation and removal. A great accessory for shorter learners; now everyone can participate
**Note**: The Extension Wand is an accessory for the IS-01 Interactive Whiteboard System, which is sold separately.

# The $149 Interactive Whiteboard
## IS-01 Interactive Whiteboard System

No whiteboard? No problem. The Interactive Whiteboard System, or IS-01, transforms most any flat surface into an interactive whiteboard. Pair IS-01 with a computer and projector, and in just a few simple steps you can draw and annotate on a projected "board" large enough for the entire class — up to 100"! Your drawings, gestures and highlights will all appear on the live image in real time. IS-01 is even compatible with a wide variety of software programs, meaning you'll be able to control what's on screen, just as if you were at the computer.  With its teacher-friendly operation and ease of use, IS-01 is sure to become a favorite in your classroom.

## Share and Present Like Never Before

Teachers are creating new ways to learn with iPad, and now you can take that learning even further. Stream multimedia materials wirelessly to iPad to increase engagement and interaction.

## Stunning Real-Time HD Capture

A 5 Megapixel CMOS sensor delivers exceptional images for fine details and small text. Achieve resolutions of up to 1600 x 1200 pixels wirelessly and an incredible 2592 x 1944 when directly connected to PC or Mac.

## Expand Your Teaching Horizons

Interact with students at their desks, share artwork or essays for the class, or even take iZiggi-HD on a special field trip. For both individual and group sessions, iZiggi-HD gives you a wealth of options.

## Transform iPad into an Interactive Whiteboard

With the IPEVO Whiteboard app, you can draw and annotate directly onto your images. Augment lessons and put the attention right where it belongs, all with simple touchscreen controls.

## Designed for Hassle-Free Capture

Because time should be spent on your lesson, not on fiddling with the camera, iZiggi-HD makes capture easy with a multi-jointed swing arm and swiveling head.

## PC and Mac Compatible

You can also use iZiggi-HD with your PC or Mac, either wirelessly or via wired USB connection. On your computer, IPEVO Presenter software delivers even more practical customizations and features.

# Unleash the Full Potential of iPad for Education

## iZiggi HD Wireless Document Camera for iPad, PC and Mac

**The Wireless Doc Cam for iPad.** iZiggi-HD — the document camera designed for iPad — is the next evolution in affordable doc cam technology from IPEVO. Traditional doc cams often need to be connected to a computer via USB. iZiggi-HD connects wirelessly to iPad and skips the computer to stream live, high-resolution images of documents, textbooks, handwritten notes, pictures, devices and 3D objects for teaching and presenting. So whether you're in the classroom, in the office, or anywhere else, iZiggi-HD is the best way to share material with iPad.

http://www.ipevo.com/iziggi
Model no. **5-863-2-08-00**

- True 5.0-megapixel CMOS sensor
- Resolutions:
  Up to 1600 x 1200 wirelessly on iPad, PC or Mac
  Up to 2592 x 1944 directly connected to PC or Mac
- Full autofocus lens
- Up to 2.2″ (5.5 cm) macro focus
- Up to 30 fps live video capture (at 640 x 480)
- USB 2.0 Video Class (UVC) interface
- iPad, Mac & Windows PC compatible
- Max shooting area: 12.4″ x 9.1″ (315 x 230 mm)
- LxWxH (when folded): 9.3″ x 2.2″ x 2.5″ (237 x 55 x 63 mm)
- Weight: 1.25 lbs (566 g)
- USB extension cable length: 3.9ft (120 cm)
- Standard Compliance: 802.11 b/g/n
- Ports: USB 2.0 x2, RJ-45 x1
- Inputs: DC 5V 2A

# $159

## Direct Projection Without the Clutter

VZ-1 HD captures documents and live images and sends them directly to your projector — no computer required. VZ-1 is also compatible with most TVs and monitors with a VGA input. Easily share documents, textbooks, artwork, 3D objects, and devices with digital screens.

## High-Def Capture, Swing-Arm Convenience

VZ-1 HD features a 5.0 Megapixel camera and offers a range of high-definition resolutions — up to 2592 x 1944 pixels on PC or Mac, and 1920 x 1080 pixels using VGA. And with the camera's special multi-jointed swing-arm, it's never been easier to adjust your shot and capture your subject in stunning detail.

## Connect to Your Computer via USB

Turn VZ-1 HD into your own personal assistant by connecting to your computer via USB. Scan tests and worksheets, capture material for demonstrations, share educational apps on iPad and much more. You can also take advantage of IPEVO Presenter software, which is packed with additional features and image customizations.

## 270° Swivel Head, Perfect for Hands-On Learning

VZ-1 HD's multi-jointed swing-arm and swiveling head give you the freedom to place the camera anywhere you need it without the hassle of tightening knobs or otherwise locking the stand. VZ-1 HD's uncomplicated design ensures your time is spent on teaching, not on fiddling with controls.

## Single Focus Brings iPad to Life

The Single focus mode of VZ-1 HD is ideal for demoing educational apps on the iPad. Capture hand gestures, drawing, writing, and all types of interactions without having to worry about focus.

## Small Footprint, Big Impact

VZ-1's small footprint allows you to do more with a limited amount of space. Its base won't take up too much of your desk, and the unit can be folded together and transported between home and office or between classrooms.

**Built-in LED Light**
Casts a powerful, even light on your subject, ideal in darkened classrooms and similar darker environments

**Perfect Exposure, Every Time**
Let VZ-1 HD find the best exposure for your subject, or manually adjust exposure with a simple toggle switch

**Sharp Focus, Your Way**
Choose between Single (S) and Continuous (C) focus modes. Keep your subject sharp whichever way you prefer

**Switch Resolutions with a Click**
VZ-1 HD supports a variety of resolutions, all at the turn of a switch

**Accessories for VZ-1 HD**

WS-01 Wireless Station    Scan Kit    Magnifying Lens

## The Most Affordable Dual-Mode Document Cam
## VZ-1 HD VGA/USB Dual-Mode Document Camera

The Dual Mode Doc Cam. The VZ-1 HD doc cam puts the choice in your hands for teaching, demonstrations and presentations — no computer required. Use a VGA connection to stream high-def live images directly to your projector, or connect to PC or Mac via USB. With its combination of affordability, ultra-intuitive operation, and light weight, VZ-1 HD holds a decisive edge over conventional standalone doc cams.

## X1-N6 Internet Conference Station

· Voice chat conferencing to make remote teaching and meetings simple
· Plug-and-play, USB-powered for Mac and PC
· Compatible with a wide variety of chat and conference applications like Skype, iChat, Google Talk and Hangout, GoToMeeting and many more
· High-quality, 16-bit Digital Signal Processor with full duplex for superior sound
· Background noise filtering and echo cancellation to further enhance sound quality
· 360 degrees of speaking freedom, and voice range of 5 meters (5.4 yards)

http://www.ipevo.com/x1n6
Model no. **CDCA-01IP**

**$139**

## WPS-HD High Definition Wireless Presentation System

· Project high-def content with PC or Mac
· Save time and simplify your setup in the classroom or conference room
· Project up to four computers at the same time
· Front USB ports for keyboard and mouse — conveniently control admin functions at a distance
· With Conference Mode, you are in control of what appears on screen
· Project content from any computer on the network

http://www.ipevo.com/high_def_wireless_presentation_system
Model no. **5-138-2-8006**

**$199** *HDMI cable not included

## Microscope Adapter for P2V USB Document Cam

· Attach your Point 2 View camera to the microscope eyepiece to share with the whole class
· Four flexible adapters in total to fit the majority of microscopes
· Adapters for both straight eyepieces and angled (reflected) eyepieces
· Fits both 28mm- and 33mm-diameter eyepieces

http://www.ipevo.com/p2v_microscope_adapter
Model no. **A-854-2-08-00**

**$19** *Point 2 View sold separately

Point 2 View

## Magnifying Lens for P2V and VZ-1 HD Document Cam

· 2X magnification to bring tiny details to life with your Point 2 View or VZ-1 HD Document Camera
· Hold it flat against your subject; mounts on the front of the Point 2 View or VZ-1 HD camera body
· Art, science, history, or mathematics — you'll find dozens of uses for the Magnifying Lens
· Built-in LED light gives your subject the illumination it needs for projection
· Note: This is an accessory for the Point 2 View or VZ-1 HD camera. Camera sold separately

http://www.ipevo.com/p2v_magnifying_lens
Model no. **5-832-2-01-00**

**$19** *IPEVO Doc Cams sold separately

Point 2 View     VZ-1 HD

## WPS Wireless Presentation System

· No more wires! Wirelessly project multiple PC or Mac computer screens
· 4-in-1 split screen mode to simultaneously project up to four desktops
· Create a "Plug and Show" token to make projecting from any computer even easier
· Connect with a WiFi Access Point, and content from any computer on the network can be presented
· Supports high-speed, 30fps projection at SVGA (800x600), XGA (1024x768), WXGA (1280x768), and WXGA+ (1280x800) output resolutions

http://www.ipevo.com/wireless_presentation_system
Model no. **5-118-6-1001**

**$139**

## USB SuperCharger for Charging Up to 4 iPads At Once

· Charge four iPads at the same time using a single wall socket
· Great for conference rooms, classrooms, and any space with multiple iPads
· Maximum power output of 2.1 amps for each USB charge port - no power compromises!
· Also works with a range of other USB devices, like iPhone, iPod and other smartphones
· Portable size — swap between tables, offices, and classrooms

http://www.ipevo.com/superCharger
Model no. **5-138-1-8004**

**$59**

## Retractable Laptop Security Lock

· Retractable lock secures your laptop without excess cable
· Compact security solution fits in your bag; perfect for travel and business trips
· Quick one-button operation; lock or retract the cable in seconds
· Secure more than your laptop; great for luggage, bags, tools and more
· Compatible with Kensington Security Slot; strong zinc-alloy cable measures 4.26 feet (1.3 meters)

http://www.ipevo.com/retractable_laptop_lock
Model no. **5-118-2-1000**

### $19.99

## Dual Mode Laptop Security Lock

· Two ways to secure your laptop — keys (x2) and combination lock
· Great for administrators and managers — keep the keys and give the combination to your staff
· Forget-proof security — if you forget the combination, just use the keys
· High level of security for your valuable device; over 10,000 possible combinations
· Compatible with Kensington Security Slot; strong zinc-alloy cable measures 6.56 feet (2 meters)

http://www.ipevo.com/dual_mode_laptop_lock
Model no. **5-138-0-8002**

### $19.99

## USB Active Extension Cable for USB Doc Cam and IS-01

· Active USB extends the normal 16.4ft length limit so you can connect your USB 2.0 device at any distance
· Daisy chain any number of cables to customize your total cable length
· Standard data transfer speed of 480Mbps; fully shielded for error-free connections
· PC or Mac, plug-and-play, and hot swappable
· Comes in 32.8-foot (10-meter) length; no external power needed for single 32.8ft cable

http://www.ipevo.com/32ft_extension_cable
Model no. **5-118-2-1000**

### $39

## USB Extension Cable for USB Doc Cam and IS-01

· Hi-speed USB 2.0 male-to-female Extension Cable for your USB devices
· 16ft, 5 inches (5-meter) cable delivers extra length when you need it
· Type A plug-and-play, compatible with PC or Mac and many USB 2.0 devices
· Great for IPEVO document cameras like Point 2 View and Ziggi-HD
· Also compatible with the IS-01 Interactive Whiteboard System; ideal for classrooms
· Standard maximum speed of 480Mbps

http://www.ipevo.com/16ft_extension_cable
Model no. **5-138-2-8000**

### $6.50

# 6 Ways to Improve Your Lesson with IS-01 Interactive Whiteboard System and Annotator

IPEVO's IS-01 Interactive Whiteboard System and Annotator Software can be a great addition to any classroom. It is a tool that can help to improve any lesson or activity. Here are just 6 ways IS-01 can help improve your lesson. Have a suggestion on how you would use IS-01? Let us know down in the comments.
**Dryden Elementary**
IL, USA

### 1. Powerpoint and Presentation Software:
IPEVO's IS-01 Interactive Whiteboard System is compatible with any power point presentation software. You can even write and highlight sections for emphasis when using IPEVO's Annotator Software.

### 2. Interactive Games and Apps:
Create fun educational games with IPEVO's Annotator and IS-01 Interactive Whiteboard System. Any interactive application or website that your mouse can operate will be compatible with IS-01 and it's interactive pen.
**Bosco Catholic Schools System**
Gilbertville, IA, USA

### 3. Checking Work and Teaching Lessons:
Load files and combine IS-01 with Annotator to write/draw and create an immersive lesson. Or use any of IPEVO's document cameras to project the image and annotate over it.

**North Pike Elem**
Summit, MS, USA

### 4. Interact with Videos:
Annotate and interact with live videos to help enhance your lesson. IPEVO's IS-01 is compatible with YouTube and any media player.

### 5. Drawing:
Create drawings and notes using IS-01 and Annotator or other drawing applications like MS Paint to help in your lessons.
**St. Patrick School**
Cedar Falls, IA, USA

### 6. Write and Draw over Posters and Props:
Use any poster or prop and write/draw over it. Be careful of any posters with a glossy surface as it can interfere with the Sensor Cam.
# 10 Great Classroom Activities Using iPad & Doc Cams

There are numerous options for teachers looking to invigorate their curriculum and get their students (re)engaged and inspired. Let's take a look at what's possible when you pair a document camera with multiple iPads.

For the uninitiated, doc cams capture printed documents and 3D objects. What you do with that video is where it starts to get interesting. Sure, you can project the image onto a large screen for teaching sessions, but what happens when you stream it to multiple iPads at the same time? Memorable, effective, and just plain fun activities, that's what!

Here are ideas for some K-12 subjects to get your mind turning with all the possibilities:

**Ziggi or Point 2 View USB Document Camera**
**WS-01 Wireless Station**
## Math
**1. Word Problems:** Position a word problem under the doc cam, and stream it to groups of students. Each group discusses and collaborates on the best way to solve the word problem. Groups then share and compare their answers.

**South Elementary**
Mooresville, NC, USA

**2. Pattern Blocks:** A fun yet educational exercise for younger kids involves pattern blocks and tangrams. Show patterns with the doc cam. Groups must complete the patterns correctly with their blocks.
## English
**3. Fictionary:** A fun word game is Fictionary, which you can play in groups. Find an obscure word in the dictionary and write it under the doc cam. The groups must come up with definitions for that word. Write down each "fake" definition along with the real definition. The groups then have to guess which definition fits the word.

**4. Picture Books:** For the younger crowd, reading picture books to the class can really be enhanced when another copy of the book is placed under the doc cam. Students can follow along on several iPads mounted throughout the class. Kids will love being able to follow along and see the artwork as you read.

**Cannon Elementary**
Grapevine, TX, USA

## Science
**5. Dissection:** Frog dissection is one of those iconic science class events. You can share your dissection with the class so they get a better understanding of how to conduct their own dissection. The same is true for labs and demonstrations of all kinds.

**6. Electrical Circuits:** Give groups the tools they need to make simple electrical circuits. Provide instructions and diagrams with your doc cam, and then have each group create their own circuit — to light a light bulb, for one example — using batteries, wire, circuit boards and switches.

## History
**7. Geography:** Share blank maps with groups using the doc cam. Students must fill out the maps (country names, capital cities, names of rivers and other natural features, etc.). You can add a little competition to the mix with a "Geography Bee"-style elimination.

**8. Mystery Object:** Bring in one or more actual objects from the past — an arrowhead, a uniform patch from World War II, a newspaper article about a famous event — and stream it to everyone's iPad so they get an up-close view. Ask students to guess the object's period, function, importance, and more.

This is a great visual lead-in to a lesson.

## Art
**9. Share Your Technique:** Three to five iPads, when properly distributed, is the perfect amount to give smaller classes a "front row" view of your own artspace when you share brush techniques, drawing methods, collage construction, etc. A close-up tablet view can sometimes be better than a single large projection screen.

**10. Camera Tour:** For lessons in digital photography, take students through a detailed walkthrough of the actual camera itself and all of its buttons, menus and functions. Students can learn by doing and follow the video stream of your camera tutorial with their own cameras.

To pull this setup off, consider pairing the iPads with two products: the **Ziggi-HD** and the **WS-01 Wireless Station**. With just one WS-01, you can stream 2 or 3 iPads simultaneously at 1600 x 1200 resolution, or up to 5 iPads at 1024 x 768 resolution.

The possibilities are endless, so "get your hands dirty" and give it a shot. Chances are you'll develop a unique activity that works for you and your class.

# 6 Reasons to Project Your iPad Screen with a Doc Cam

Do you need to project iPad onto the big screen for your lecture or presentation? If so, you definitely need to know why a USB document camera is the best way to go.

Reasons Why We Recommend an IPEVO Document Cam: **1.** Compatible with all generations of iPad, apps and tablets. **2.** Finger operations and gestures are captured. **3.** Plug-and-play USB; no network configurations needed. **4.** Effortlessly switch between devices and objects. **5.** The perfect tool for distance education with iPad. **6.** All of these features are combined in a $69 camera.

LCD Projector
Tablet

## 1. Project All Apps or Tablets :
When it comes to projecting iPad, people turn to Apple technologies like Apple TV and AirPlay. However, AirPlay is not available on older iPads or iPhones, nor does it support every single app. With an IPEVO doc cam, you don't need to worry about compatibility. The camera simply captures everything displayed on your iPad, iPhone or any other tablet.

## 2. Offer a Complete Picture by Including Fingers and Gestures:
"How did you do that?" If you've ever been asked that question, you know the importance of showing actual operations and gestures on iPad with fingers visible. From piano apps to drawing math diagrams and more, finger gestures absolutely matter, and you can only capture them with a document camera.

## 3. No Need to Mess with Network Settings — Plug-and-play via USB:
To project your iPad with AirPlay, you need to link them both to the same network, which can sometimes cause problems and delays. With an IPEVO document camera, just plug in your camera to a USB port on your projector-linked computer and launch the software. You'll be ready to go in no time! And no hassling with the network or waiting on IT for help.

## 4. Effortlessly Switch Between Devices and Objects:
Sometimes you need to include more than one iPad in your lecture. And sometimes you need to show a book, a printed diagram, or something else entirely. No matter what material it is, an IPEVO doc cam projects it all. And there's no need to switch between different setups to present different types of material. Just slide your material under the doc cam to project it.

## 5. Remote Lectures are Easy with IPEVO:
An IPEVO document camera is easy to set up on PC or Mac, and it's perfect for webinars, video conferencing and distance education. All you need to do is select IPEVO Document Camera in Skype, start the video conference, and shoot the iPad to start your lecture.
## 6. Get All These Features Combined for Just $69 with Free Shipping:
An IPEVO document camera is the ideal tool for your iPad presentations. It's easy to use, it's portable, and it's affordable — as low as $69. Get it at a trusted retailer like Amazon, or purchase from **www.ipevo.com** and take advantage of free shipping.

# 3 Ways to Use IPEVO's VZ-1 HD as an Inexpensive Desktop Magnifier

Do you know someone who needs help reading books, mail, or even digital screens like iPad or iPhone? Sometimes the text is just too small for older eyes or those with vision impairments. The conventional solution is a special document camera for the visually impaired, a device which can cost thousands of dollars. But with the IPEVO VZ-1 HD document camera, your loved one can enjoy a desktop magnifier for a small fraction of the cost.

There are three ways to use VZ-1 HD as a desktop magnifier. We'll step you through each scenario.

## 1. PC or Mac Setup:
VZ-1 HD can plug directly into any standard USB port on a PC or Mac. The first time you use it, you'll need to install the included IPEVO Presenter software, which you can launch to bring up a window with the doc cam's live image capture. Position the text you want to enlarge underneath the doc cam, and it will appear in the Presenter window on the computer. Additionally, Presenter has a Full Screen mode to make the doc cam's image fill the entire computer screen. Now the user can read the text as large as they need it to be.

You might also consider special software for the visually impaired which pairs perfectly with this setup. Software like ZoomText offers massive digital zoom, different font colors, high-contrast color schemes, and sharpening filters to make text even more readable.

## 2. TV, Monitor or Projector Setup:
You can "skip the computer" and plug VZ-1 HD directly into any TV, monitor or projector with a VGA port. Just plug a VGA cable into VZ-1 HD and then into your monitor or projector. Switch the resolution selector on the front of VZ-1 HD to "Auto. Res." VZ-1 HD will automatically find the best resolution.

Position the text you want to enlarge underneath the document camera. VZ-1 HD's multi-jointed swing-arm and special Macro mode let you position the camera extremely close to the text to make it nice and big.

## 3. iPad and WS-01 Wireless Station Setup:
iPad is also a great way to enjoy text and reading. Another of our products, the WS-01 Wireless Station, can work with VZ-1 HD and iPad to stream images wirelessly. Basically, when VZ-1 HD is connected to WS-01, WS-01 will send live video to iPad in real time over your existing WiFi.

Exact directions are found in the WS-01 manual. Overall, you need to connect WS-01 to the Internet and then link WS-01 to iPad using a free program called IPEVO Whiteboard, available from the App Store. Once everything is connected, text captured by the doc cam will appear large and readable on the iPad screen.

At least one user of the VZ-1 HD, J. Waycott, has already weighed in about the camera's use as an option for the visually impaired. He writes:

"My Mother-In-Law is legally blind with very poor eyesight. We took her to a store which sells document cameras specifically designed for the visually impaired. They are not covered by her insurance, and at $3,000 they are not affordable. I thought I could do better, so I began a search and found the IPEVO VZ-1 HD. I had an old 21-inch computer monitor, hooked the two up and brought it to my Mother-In-Law. The smile and glee when she recognized the faces on a 4×6 photo was priceless. She then tried a newspaper and was able to read the headlines. With concentration, she can read the print. She said 'it's a miracle'. While the VZ-1 HD is not really designed for visually impaired, it's operation with a monitor or projector is simple enough. it is an inexpensive option for those who cannot afford over-priced 'medical' devices." —Amazon Review by J. Waycott. ★★★★★

Hopefully you'll have as much success as John! Please let us know if you have any questions, or if you've tried any of these setups. We're interested to hear how the VZ-1 HD works for you.

# IPEVO Wishpool

## Wishpool Helps Educators Create Tech-Enabled Classrooms

Wishpool is a pioneering program from IPEVO with one goal in mind: getting education technology into the hands of more teachers. We do this by giving away IPEVO teaching tools to deserving educators at no charge. By simply "making a wish" through Wishpool, educators from kindergarten to college can enjoy access to modern technology which makes their jobs easier, and which also makes a real difference in the education of their students.

As of March 2014, Wishpool has received over 3,400 technology "wishes" and has fulfilled over 1,700 of them. To read these inspiring wish stories and to make a wish at no charge, visit **http://www.ipevo.com/wishpool**.

www.ipevo.com/wishpool

### IS-01 Interactive Whiteboard System

" The interactive whiteboard system has definitely added to my students learning. Currently they are working on double digit multiplication in math. As students use the system to manipulate numbers on the whiteboard others are using their individual whiteboards to do the work. Everyone is engaged.

- **Marita Schroeder,** Bosco Catholic School System, IA, USA

**Bosco Catholic School System**
Gilbertville, IA, USA

" I have never seen so many students truly engaged to a math lesson and prepared to use a new piece of technology.

-**Amy Augle,** Wilkins Elementary School, IL, USA
**Wilkins Elementary School**
Justice, IL, USA

" My kids TRIPLE LOVE this product. They all want to work with the "magic wand" -- that's their wording for the IPEVO IS-01 Interactive Whiteboard System. I knew it would be beneficial in engaging kids with our lessons but I had no idea there would be a hidden benefit: great behavior. They are on their best behavior to have a turn at the 'magic wand'.

- **Gunnell,** Crosby Middle School, KY, USA

" It was so easy to use and really drew the students into the lesson! It worked on the concrete wall in the library, as well as the whiteboard in my classroom!

- **Stephanie Peters,** Bosco System, IA, USA

" A few years ago when the only thing I had was an overhead projector the students thought it was great that they could write on the whiteboard with the worksheet projected on the board, but this interactive whiteboard system is the best! They can do so much more with it. The lessons have become more engaging and hands-on. It takes the learning and the lesson to a whole new level. They love using the "magic wand"! Thank you so much for this system.

- **Carabetsos,** Paul Revere Primary, IL, USA

**Paul Revere Primary**
Blue Island, IL, USA

### USB SuperCharger Charge 4 iPads Simultaneously

" I teach Kindergarten in a non-profit school for students with learning differences. Technology is always a huge part of our day. The USB Super Charger has made it to where my students can all work on iPads at the same time without the fear of losing battery power or having to cut their time short because we have to return the iPads to the cart to be charged. This has been wonderful for keeping my students engaged! Thanks so much iPevo for this awesome gift!

- **Kori Mackall,** The Piedmont School, High Point, NC, USA

**The Piedmont School**
High Point, NC, USA

" Our first grade team has already put it to great use during our grade level meeting - each classroom teacher could charge their iPad and continue to work during our meeting.

- **Brittany Mathews,** Norwood Elementary School, NC, USA

**Norwood Elementary School**
Norwood, NC, USA

### Microscope Adapter for P2V USB Document Camera

" I first used it in "anger" during an alternative learning day with a 'CSI' forensic science theme. Students in my groups were looking at fibre samples taken from a crime scene and attempting to match them with a fibre found on the victim of the crime.

- **Nat Boyson,** Budehaven community school, Bude, UK

**Budehaven community school**
Bude, UK

" This equipment helped my students better understand the whole concept. It also allowed them to identify the decomposers and other matter in the compost. It helped the students to see how the decomposers move and function together too. This device enabled me to provide pictures and the actual microscopic live views of the compost.

- **Amanda Haskins,** Oak Hill Elementary, IN, USA
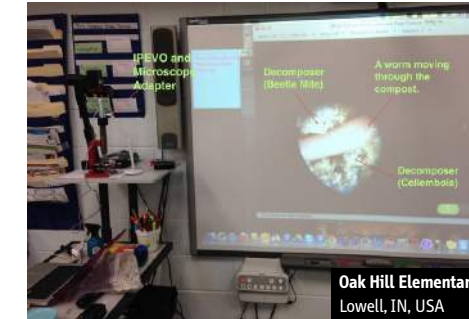

**Oak Hill Elementary**
Lowell, IN, USA

### Point 2 View (P2V) USB Document Camera

" I am able to zoom in and show my students exactly what I am referring to - be it the product of a chemical reaction, the set up of an electrical circuit or the crystals in a sample of granite - whether they are at the front or back of the class.

- **Rich Pepperell,** St. Luke's Science & Sports College, UK

**St. Luke's Science & Sports College**
UK

" One way that I have used it a lot that I hadn't even thought about is reading a story and projecting it on to the Smartboard so that the whole class can see. Students can also come up and read certain parts or refer to print when questions are asked.

- **Cheryl McCrorey,** South Elementary School, Mooresville, NC, USA

**South Elementary**
Mooresville, NC, USA

### Ziggi USB Document Camera

" It is so simple to use, the functionality is minimal but effective and the Ziggi focuses fine every time. Here is a pic of one of my colleagues using it to demo finger print taking during our forensics day.
- **Sarah Mclintock,** Okehampton College, UK

**Okehampton College**
Okehampton, UK

" I have used the Ziggi Document Camera in demonstrations and to show examples of artwork. In a large class, it can be difficult to show smaller detailed work to the whole class at the same time.

- **Keith Kozak,** Timber Creek High School, Erial, NJ, USA

**Timber Creek High School**
Erial, NJ, USA

### WS-01 Wireless Station for iPad and IPEVO USB Document Cameras

" The kids are solving math problems and correcting writing errors all with their finger and an iPad. They LOVE doing the same work that they avoid doing on paper.

- **Angie Godbout,** South Elementary, Mooresville, NC, USA

" This allows her to follow along with each lesson without having to look up at the screen.

- **Amanda Plant,** Savin Rock Community School, West Haven, CT, USA

# IPEVO is a Proud Sponsor of These Educational Events

IPEVO makes technology for educators, and we're committed to sharing the word about the positive impact technology can have in the classroom.

When we heard about EdCamp and its innovative "unconference" approach to continuing the ed tech conversation, we had to get involved. We've been a sponsor of several EdCamp unconferences and other education tech-centric events. These events are less about strict schedules and lecture formats, and more about teachers sitting down and having discussions with other teachers in less formal (but very productive!) settings. We think it's a great way to brainstorm, innovate and share what's working when it comes to education, and we're grateful to be in on the conversation.

Here's a list of events IPEVO has sponsored so far in 2014 (last updated March 2014). Many more events are on its way!

# IPEVO W-9 Form for Vendor Registration

**Form W-9**
(Rev. August 2013)
Department of the Treasury
Internal Revenue Service

**Request for Taxpayer Identification Number and Certification**

**Give Form to the requester. Do not send to the IRS.**

Print or type
See **Specific Instructions** on page 2.

Name (as shown on your income tax return)
**IPEVO INC**

Business name/disregarded entity name, if different from above

Check appropriate box for federal tax classification:
☐ Individual/sole proprietor  ☑ C Corporation  ☐ S Corporation  ☐ Partnership  ☐ Trust/estate

☐ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership) ▶ _____

☐ Other (see instructions) ▶

Exemptions (see instructions):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

Address (number, street, and apt. or suite no.)
**440 N. Wolfe Road**

City, state, and ZIP code
**Sunnyvale, CA 94085**

Requester's name and address (optional)

List account number(s) here (optional)

## Part I  Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on the "Name" line to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

**Note.** If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

Social security number

| | | – | | | – | | | | |

Employer identification number

| 7 | 1 | – | 0 | 9 | 8 | 3 | 3 | 5 | 3 |

## Part II  Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and

2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and

3. I am a U.S. citizen or other U.S. person (defined below), and

4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

**Sign Here**  Signature of U.S. person ▶ *Shu Hui Chang*  Date ▶ 05/07/2014

## General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

**Future developments**. The IRS has created a page on IRS.gov for information about Form W-9, at *www.irs.gov/w9*. Information about any future developments affecting Form W-9 (such as legislation enacted after we release it) will be posted on that page.

## Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, payments made to you in settlement of payment card and third party network transactions, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),

2. Certify that you are not subject to backup withholding, or

3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and

4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct.

**Note.** If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

**Definition of a U.S. person.** For federal tax purposes, you are considered a U.S. person if you are:

• An individual who is a U.S. citizen or U.S. resident alien,

• A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,

• An estate (other than a foreign estate), or

• A domestic trust (as defined in Regulations section 301.7701-7).

**Special rules for partnerships.** Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

Cat. No. 10231X

**$69**

www.ipevo.com/at-st
Model No. 5-860-1-08-00

**Agile and Poised iPhone Stand for Superior Video and Image Capture**

- Hands-free operation and perfect alignment for expert, adaptable capture
- Multi-jointed swing-arm — position your iDevice in any direction and at any height
- 2.1-lb weighted base — a broad, sturdy foundation prevents shaking or tip-overs
- Heavy-duty swiveling hinge allows you to achieve any angle and orientation
- Firm, tight grip holder keeps your iDevice safely and securely mounted
- Soft rubber inside the grip protects your device; cord clip keeps your charge cord tidy

### Rock-Solid Stability and Versatile Hands-Free Capture

No blur, no handheld camera shake, and no compromises. The Articulating Video Stand is an essential tool for teachers, bloggers, and anyone interested in sharing their hobby, music, art or knowledge.

### Unlock the Full Video Capture Potential of iPhone's Camera

iPhone's great HD camera deserves shake-free, expert camera placement. Create serious videos for teaching, for business, for your blog, or for your hobby. End the distractions of amateur capture.

### Maximum Security for Maximum Peace of Mind

High-quality construction features a 2.1-lb. weighted base which prevents tip-overs, even at full extension. And a strong, rugged grip maintains firm hold of your device at all times.

### Ideal for Live Demonstrations and Tutorials of All Kinds

Use simple hand adjustments to position your capture device right where you need it — even downward and parallel to the table for documents. Ditch the limitations of standard stands.

### Turn Your iPhone or iPod Touch into a Document Camera

Courtesy of the free IPEVO Presenter app, share documents, artwork, annotations and 3D objects by transforming your iPhone or iPod Touch into a multipurpose document camera.

### Capture Stop-Motion and Time-Lapse Videos with Ease

Whether it's stop-motion films in art class or time-lapse experiments in science class, Articulating Video Stand delivers the stability necessary for these special capture scenarios.

**Firm, steady grip secures your device**

**Built-in cord management**

**Heavy duty multi-jointed swing-arm**

**Steady, weighted base**
