

## UNIVERSAL VOIP HANDSET

MAKE INTERNET CALLING AS EASY & CLEAR AS USING A REGULAR TELEPHONE

ST-4RT.1

IPEVO Universal VoIP Handset makes Internet calling as easy and clear as a traditional telephone. The handset is a simple alternative to headsets and earplugs. It is aimed to provide the most intuitive and hassle-free VoIP experience with minimum design clutter.

### Make Internet calling as easy and clear as a traditional phone handset

- Designed with the simplicity and familiarity of a regular phone
- Delivers outstanding sound quality in a compact and natural ergonomic form
- Adjustable sound volume dial conveniently tucked into the side of the handset

### Plug-n-talk compatibility with most VoIP software and voice-enabled Internet chat applications

- Universally compatible with most Internet communication applications such as Skype, Google Talk, Windows Live Messenger, Yahoo! Messenger, AOL, iChat and VoIP systems (i.e. Microsoft Office Communicator, Avaya solutions, etc)
- Compatible with PC and Mac with 3.5mm audio jacks
- No drivers or additional software required. Simply plug-in the audio jacks to enable speaker and MIC

### On-the-Go portability

- Compact, lightweight and portable design
- Integrated cable management
- Easy to pack up and plug-in for immediate accessibility

### The simple alternative to headsets and earplugs

- Communicate naturally with privacy
- Nothing to put in your ear or wrap around your head
- A more instinctive way to communicate

### Key Features

- Compatible with PC and MAC with 3.5mm audio jacks
- No drivers required
- Supports most VoIP softphone and voice-enabled Internet chat programs
- Excellent high quality mic and speaker
- Compact, lightweight, and ergonomic design
- Built-in adjustable volume control

reddot design award  
winner 2008
